

# ALIEN FILES: REOPENED

THE TRUTH BEHIND THE MOST ICONIC CASES  
IN UFO HISTORY

**BIG**  
MEDIA

Big Media has secured access to active and former senior leaders from the **FBI**, **CIA**, and **State Department**, former targets of Chinese kidnapping attempts, and local law enforcement officers, foreign intelligence services throughout Europe, and Asia.

RECENTLY DECLASSIFIED REPORTS OF UAP'S HAVE AWAKENED MILLIONS TO A STARTLING UNDENIABLE REALITY. EXTRA TERRESTRIALS EXIST AND THEY ARE HERE. HOWEVER, WITH ALL THE DISINFORMATION OUT THERE, THE PUBLIC CAN'T DISCERN WHICH CASES ARE TRUE AND WHICH CASES HAVE BEEN USED TO MANIPULATE THE MASSES.

## SERIES OVERVIEW:

Alien Files Reopened takes the UFO and Extra Terrestrial Phenomenon to the next level by using investigation techniques to figure out exactly what the history is behind the mystery of some of the most well-known, extraordinary cases of the last 75 years. Using a team of experts which include a cultural sociologist specializing in paranormal belief systems, an astrophysicist and space scientist, a UFO investigative researcher & clinical psychologist specializing in alien abduction cases, and a neuroscientist & former intelligence officer, a forensic type analysis will ensue to figure out what is fact and what is fiction, as well as, what factors contributed to the lack of clarity, who is pulling strings and most importantly why they are doing so? From government disinformation and fake abduction stories to the infiltration of the UFO community and protection of technological information against a state's adversaries, this series will have the audience spinning their heads to figure out who and what they can trust.

# FILE 101: Summer of the Saucers, 1952

UFOs picked up on radar over Washington D.C.

---

## SYNOPSIS:

**WASHINGTON, D.C. 1952:** Radar at two local air force bases, Andrews and Bolling, picked up UFOs and two U.S. Air Force F-94 jets streaked over Washington, searching for flying saucers. Then, a week later, it happened all over again -- more UFOs on the radar screen, more jets scrambled over Washington. Across America, the story of jets chasing UFOs over the White House knocked the Korean War and the presidential campaign off the front pages of newspapers. Every major newspaper picked up the story. As rumors spread, President Truman demanded to know what was flying over his house. Soon the federal government was fighting the UFOs with the most powerful weapons in the Washington arsenal – bureaucracy and obfuscation.

## NEW REVEAL:

In the 1950s the final response given to the U.S. public from the government to explain Summer of the Saucers was a temperature inversion. Now, 70 years later we are watching televised congressional hearings from a whistleblower revealing crashed extra-terrestrial craft containing non-human biology. Our experts reopen the file and re-examine the evidence with a new perspective as well as a modern day understanding of science, and astronomy as well as leaning on the technological leaps forward that allow us to look at our own past through a more sophisticated technological lens. In this episode modern fighter jet radar systems provide a new understanding of the events that occurred in 1952.

# FILE 102: The Tall Whites, 1964

A young recruit describes meeting aliens while stationed at Nellis Air Force base.

---

## SYNOPSIS:

**INDIAN SPRINGS, NEVADA, 1964:** Charles James Hall was stationed at Nellis Air Force Base in the Nevada desert where he spent extensive periods of time as a weather observer on the gunnery ranges at Indian Springs. During his time in the desert, he encounters an alien race that he refers to as the "Tall Whites" - a description of their appearance. He also claims the "Tall Whites" were working with U.S. military personnel and housed an advanced spaceship in a secret hangar dug into a mountainside near the base.

## NEW REVEAL:

In 1965, Charles Hall's stories were described as "crazy tall tales inconsistent with reality." Now, new evidence has shown that two years prior to Hall's experience, there was a UFO crash landing near Nellis Air Force Base that was covered up by the US government classifying it as a meteor against the known evidence. Our experts will reopen the file and reexamine the evidence pertaining to Hall's "tall tale" as well as the meteor investigation by several intelligence agencies and Project Blue Book to see if there is any credence to Hall's story after all. Some of the things he claimed to have seen are being seen again by seemingly rational witnesses. Could he have been right all along?

# FILE 103: Billy Meir, The Plejaren and the Multiverse, 1975

A swiss national reveals his encounters with an alien race from the Pleiades star cluster.

---

## SYNOPSIS:

Billy Meir is Swiss national who in 1975 claimed he traveled on a beamship through space with his extra-terrestrial friends. He claimed to have been in contact with these xtra terrestrials telepathically since the age of five years old and that they allowed him to take photographs and videos of their spacecraft. Billy Meir also claims he met the real Jesus Christ who was in fact an extra-terrestrial named Jmannuelle and that major religions and government agencies have been trying to undermine him by stealing his evidence and replacing it with falsified photographs. Since 1975, Billy Meir's story has been widely characterized as fraudulent by skeptics and most ufologists who say that his photographs and films are hoaxes. His story is considered taboo for anyone who wants to be taken seriously to speak of in a positive light.

## NEW REVEAL:

New information reveals that in 2021 NASA funded a program which hired theologians to research how humans may react to news that intelligent life exists on other planets. Witnesses have been coming forward to admit they helped government agencies falsify Billy Meir's claims. Our team of experts will dig into the new evidence as well as the science behind Billy Meir's claims to figure out if in fact he is a liar, if someone out there is trying to undermine him and if so, why?

# FILE 104: Paul Bennewitz & Project Seven Lambs, 1978

Claims of a secret underground lab in Dulce, New Mexico, lead to multiple cover-ups and the reveal of a massive disinformation scheme.

---

## SYNOPSIS:

DULCE, NEW MEXICO, 1978: Electrical physicist Paul Bennewitz is convinced he has located a top secret human and alien underground lab in Dulce, New Mexico near Los Alamos. The US Military thinks Bennewitz has come too close to top secret information and sends Air Force investigators including Sgt. Richard Doty to feed him lies as part of an insidious program called COINTELPRO. But is Doty himself a pawn in an even bigger disinformation scheme? And what about claims that surface in 1995 by government engineer Phil Schneider who reports witnessing aliens and humans in the underground lab he helped build in Dulce? Schneider spent 17 years working on government black projects and died of mysterious causes in 1996. It's possible that he was also a pawn in a massive disinformation scheme. However, it equally possible he may really know something about the lab. After all, what better way to keep a secret than to bury it underneath layers of lies. Distracting the public from the truth isn't solely a US phenomenon.

## NEW REVEAL:

Richard Doty, the intelligence officer working for Air Force Office of Special Investigations ran a deception campaign against Paul Bennewitz for more than 40 years. Project Seven Lambs was a deliberate attempt to divert Paul Bennewitz's attention away from U.S. technology they didn't want to fall into the wrong hands. In a new, exclusive interview with Richard Doty, he reveals that Bennewitz was in fact decoding messages from extraterrestrials and Doty now admits that high level technology exchange was happening on US soil with extraterrestrial civilisations. Our experts will reopen this file to figure out if these new claims are scientifically plausible and if Doty or Bennewitz are reliable narrators.

# FILE 105: Rendlesham Forest, Back from the Future, 1980

A UFO lands between two military Air Force bases in England.

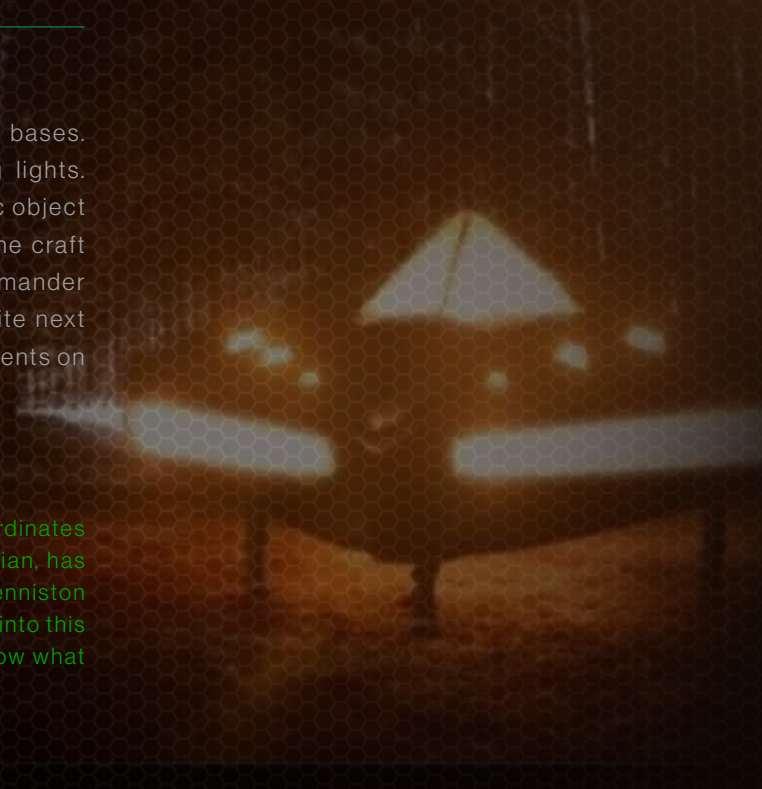

---

## SYNOPSIS:

**Rendlesham Forest, England 1980:** A UFO, detected on military radar, landed near crucial NATO bases. Around 3:00am on December 26th, a security patrol near RAF Woodbridge spotted descending lights. Servicemen - Jim Penniston, John Burroughs, Ed Cabansang - investigated, finding a glowing metallic object with colored lights. It moved through trees, agitating nearby farm animals. Penniston documented the craft for 45 minutes in a notebook, including sketches of hieroglyphic inscriptions. Deputy base commander Lieutenant Colonel Charles Halt and team, armed with an AN/PDR-27 radiation meter, visited the site next day. Radiation readings were taken in the depressions' triangle and surroundings. Halt recorded the events on a micro-cassette recorder famously known as "The Halt Tape."

## NEW REVEAL:

Mathematicians have been waiting for modern computing to develop to be able to analyze the seven coordinates Jim Penniston received 30 years ago. In recent years Gary Osborn, a well-known scientist and mathematician, has finally decoded the numbers which he believes prove that on that very night in Rendlesham Forest, Jim Penniston received information from the future that was sent back to us from our own future. Our experts will dive deep into this investigation with the new evidence to see if any of this can actually be corroborated and we can finally know what happened on that mysterious night in the forest.

# FILE 106: Ariel Sightings Ruwa, Zimbabwe 1994

Students at the Ariel School in rural Zimbabwe spot a silver craft.

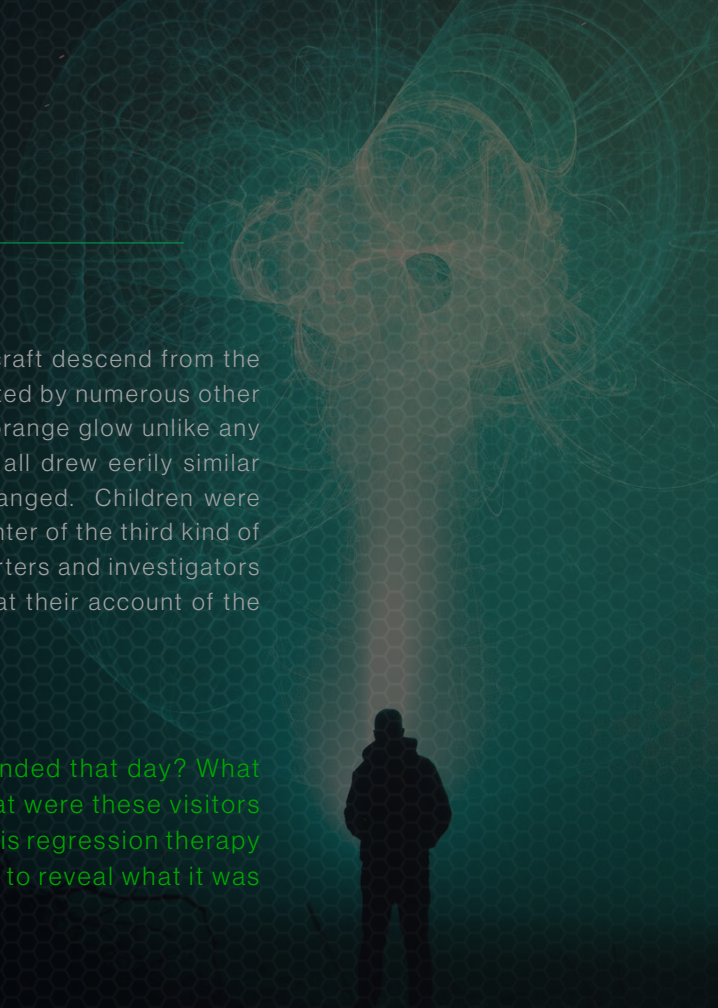

---

## SYNOPSIS:

On 16 September 1994, sixty two pupils at the Ariel School in rural Zimbabwe said that they saw silver craft descend from the sky and land on a field near their school. Across Zimbabwe and neighboring Zambia, this was corroborated by numerous other sightings of an orange glow by adult witnesses who say a craft moving across the sky and emitting an orange glow unlike any normal aircraft. The children claimed that the beings telepathically communicated with them and they all drew eerily similar pictures of the event. However, in rural Zimbabwe in the 1990's people closed ranks, stories were changed. Children were silenced and the world moved on. The incident has been described as the "most remarkable close encounter of the third kind of the 1990s" but skeptics have described the incident as simply an example of mass hysteria and that reporters and investigators that followed brought their own agendas. However, many of those who were there that day maintain that their account of the incident is true and won't be silenced.

## NEW REVEAL:

We look back at the original footage and speak to witnesses there at the time. What was it that landed that day? What were the events afterwards that confused the narrative. Why would children invent a story and what were these visitors trying to convey. With the help of Laurie McDonald who has spent the last 25 years providing hypnosis regression therapy for people who claimed to have been abducted by aliens we will look at the testimony then and now to reveal what it was that 62 children saw that day.

# FILE 107: The Belgian UFO Wave, 1990

Triangle shaped UAPs are spotted hovering over Sofam, Belgium.

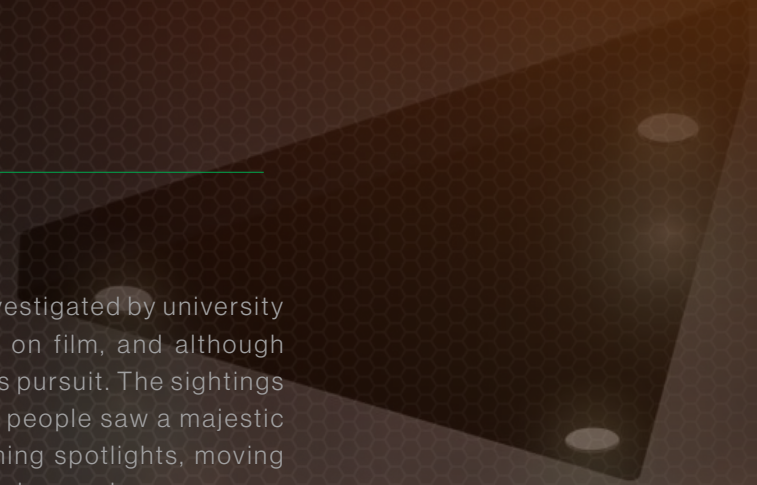

---

## SYNOPSIS:

Silent gliding or hovering objects, usually triangular, were seen by thousands of people and investigated by university scientists and government officials, yet they could never be explained. They left imprints on film, and although virtually impossible to track on radar, they triggered the launching of Air Force F-16s in anxious pursuit. The sightings occurred in a more than two- year "wave" over Belgium, beginning in late 1989. "Hundreds of people saw a majestic triangular craft with a span of approximately a hundred and twenty feet and powerful beaming spotlights, moving very slowly without making any significant noise but, in several cases, accelerating to very high speeds.

## NEW REVEAL:

In recent years, the famous piece of evidence, the Belgian UFO photograph that became a worldwide hit was revealed to be a fake. Major General Wilfried de Brouwer, Chief of Operations of the air staff, the man who led the investigation was blown away and is now convinced that Belgian UFO wave was a complete hoax. In our exclusive interview with Nick Pope of the British Ministry of Defense, he reveals to us why the faked photograph shouldn't be the arbiter of truth in this case. Our team of experts reopen the file with this new information behind these claims and whether or not the Belgian UFO wave was a hoaxed event, a psychological operation conducted by an alliance of governments, a covert testing of advanced military equipment or a cover up of extraterrestrial craft after all.

# FILE 108: Negative Energy, 2014

United States Air Force spots triangle shaped aircrafts watching their training drills.

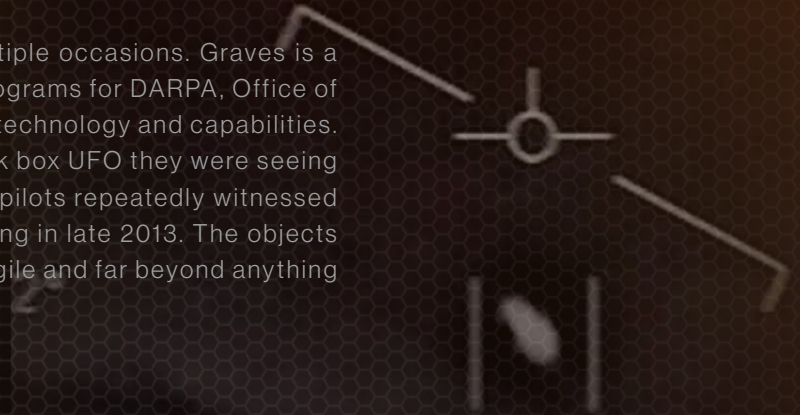

---

## SYNOPSIS:

Lt. Ryan Graves and pilots in his squadron detected and engaged with UFOs on multiple occasions. Graves is a former Navy fighter pilot, who has worked on advanced research and development programs for DARPA, Office of Naval Research, and Air Force Research Labs on high level cutting edge aeronautical technology and capabilities. He gave a detailed description of regular encounters that flight teams had with a black box UFO they were seeing "every day." These have become known as tic tacs and gimbals. He said that multiple pilots repeatedly witnessed a strange UFO phenomenon on their equipment, as well as with their own eyes, starting in late 2013. The objects were always up there, every day, as they conducted training exercises. Too fast, too agile and far beyond anything we have the technology to combat.

## NEW REVEAL:

Today, ten years later, Ryan Graves has testified in congress alongside whistleblower David Grusch and David Fravor who had a run-in with a tic tac shaped UFO in 2004. All three witnesses said current reporting systems are inadequate to investigate UAP encounters, and said a stigma still exists for pilots and officials who press for more transparency. Ryan Graves' mission is not to simply let the public know, but to protect his fellow pilots who are in constant danger of the unknown. In this episode our experts will take us through the evolution of science and modern day technology, the reliability of modern day fighter pilots as witnesses and explore the ultimate difference between our understanding of UAP activity over the past 70 years vs today to decipher for our series finale what is fact, what is fiction.

**EXPERTS**

# Chuck Brooks

## President of Brooks Consulting International

Chuck Brooks is a globally recognised thought leader and subject matter expert in Cybersecurity and Emerging Technologies. Serving at executive levels in both government and industry, he is a two-time Presidential Appointee and was a member of the initial group to set up the Department of Homeland Security under George W. Bush.

As an Adjunct Faculty at Georgetown University's Applied Intelligence Program and graduate Cybersecurity Programs, he teaches courses on risk management, homeland security and cybersecurity. In media, Brooks is the featured Homeland Security contributor for the Federal Times, a featured cybersecurity contributor for High-Performance Counsel, and an advisor and contributor to Cognitive World - a leading publication on artificial intelligence.

Considered one of the world's best Cybersecurity and Technology Experts, alongside being a Global Influencer in Risk and Compliance, Brooks word is well renowned and well respected in the world of security.

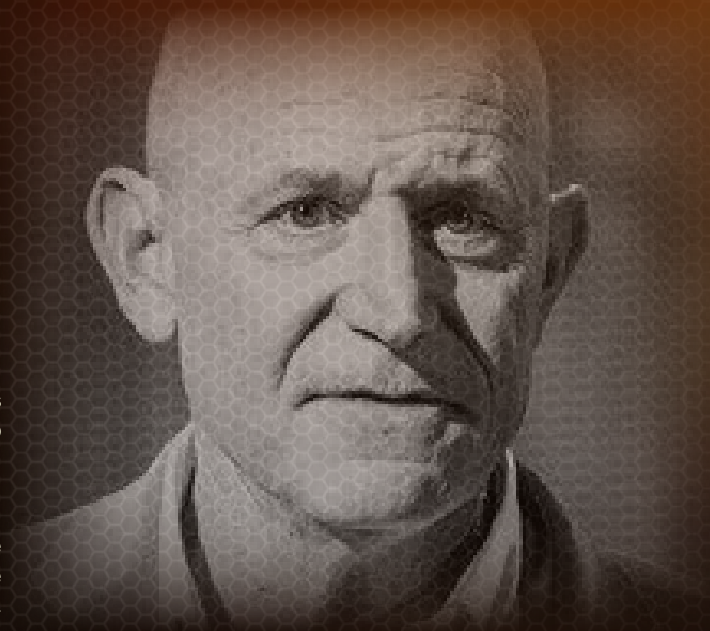

## Dr Eric Haseltine

Futurist, Author, Neuroscientist,  
and Intelligence Officer

Dr Eric Haseltine is an innovative neuroscientist and futurist, previously serving the US Government as Associate Director of National Intelligence. His applied brain-centered approach has been used to help organizations in aerospace, entertainment, healthcare, consumer products and national security.

With an illustrious career spanning decades, Dr Haseltine spent 13 years at Hughes Aircraft where he rose to the position of Director of Engineering. In 1992, he joined Walt Disney Imagineering to help found the Virtual Reality Studio while also heading up Research and Development for the entire Disney Corporation. He left in 2002 to join the National Security Agency as Director of Research, where he went on to become Associate Director for Science and Technology at the Office of the Director of National Intelligence.

With over thirty years of experience under his belt, Dr Haseltine has become a leading technologist and neuroscientist, who now presides as Chairman of the Board of the US Technology Leadership Council.

# Laurie McDonald

## Investigative Researcher and Clinical Psychologist

President of the Organization for Paranormal Understanding and Support, Laurie McDonald is an A.C.H.E accredited and certified Clinical Hypnotherapist, specializing in encounters with the extra-terrestrial and paranormal.

As an investigative researcher, McDonald specializes in the subject of alien encounters which she combines with her patients' first-hand testimonies. As both a Hypnotherapist and an Alien Abduction Hypnotherapist, she deals with the paranormal daily, even assisting Demi Lovato after her Alien encounter.

She is a member of the Sacramento Institute of Noetic Sciences and is on the mental health referral list for organizations such as Passages of Malibu addiction centre and MUFON - Mutual UFO Network. Well-respected in her field, McDonald's work straddles the line between psychology and the paranormal.

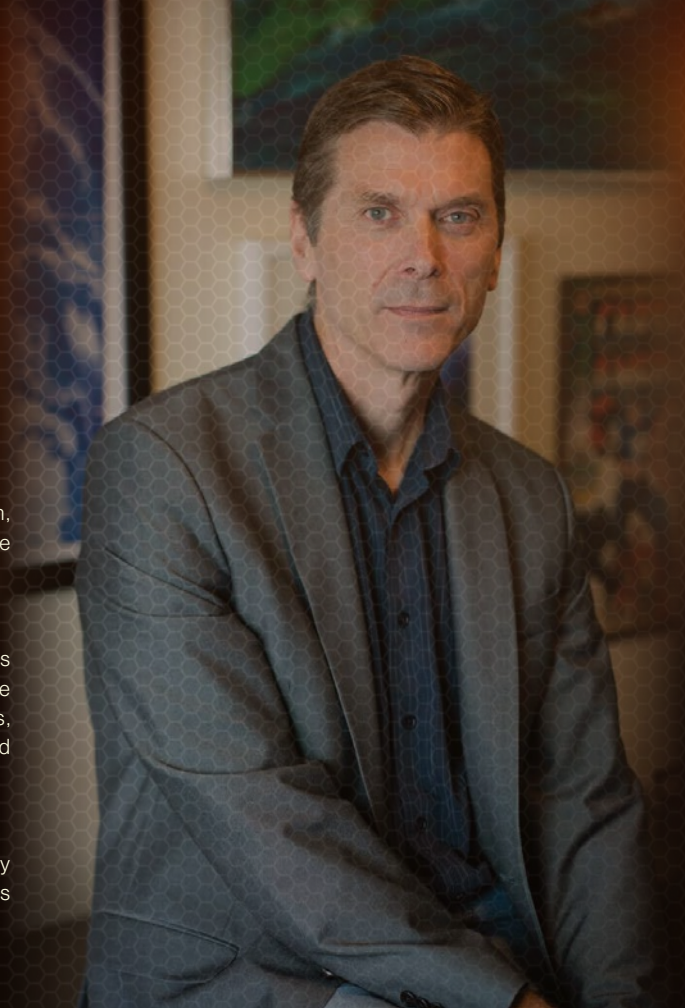

# Dr Chris Bader

## Cultural Psychologist and Sociologist

Dr Chris Bader is a Professor of Sociology at Chapman University and is affiliated with the Institute for Religion, Economics and Society (IRES). He is also the author of "Paranormal America" & "The UFO Contact Movement from the 1950s to the Present".

Dr Bader has studied paranormal beliefs for over twenty years. With a background in understanding belief systems across the nation, from being the principal investigator on the first two waves of the Baylor Religion Survey and the first three waves of the Chapman Survey of American Fears. Dr Bader has gone on to participate in several ghost hunts, observed support groups for UFO abductees, joined Bigfoot investigations and attended numerous psychic fairs and UFO and Bigfoot conventions.

Dr Bader's combined knowledge and experience have made him an expert in the field of paranormal beliefs especially across the United States of America, where four in ten Americans believe in extraterrestrial life and UFOs. Dr Bader is currently developing a second edition of "Paranormal America".

# Dr Maggie Aderin-Pocock

## Astrophysicist

Dr Maggie Aderin-Pocock is a space scientist, science communicator, astrophysicist and mechanical engineer. She is the first black woman to win a gold medal in the Physics News Award and she served as the president of the British Science Association from 2021 to 2022. She is also co-presenter of the long-running astronomy show "The Sky at Night".

From 1996 to 1999 she worked at the Defence Evaluation and Research Agency - a branch of the UK Ministry of Defence - initially as a systems scientist on aircraft missile warning systems before becoming a project manager developing hand-held instruments to detect landmines. At Imperial College, she helped develop a high-resolution spectrograph for the Gemini Telescope in Chile, which allowed for high spectral resolution to study stellar populations, interstellar medium and physical phenomena in stars with small masses.

Honored with an MBE, Dr Aderin-Pocock's company 'Science Innovation Ltd' engages children and adults through its "Tours of the Universe" - a program that explains about the science of space. Passionate about inspiring a new generation in the world of space and science, she is a pioneering figure in communicating science to the public, specifically school children.

# ALIEN FILES: REOPENED

THE TRUTH BEHIND THE MOST ICONIC  
CASES IN UFO HISTORY

**BIG**  
M E D I A
